

## Short paragraph CV - Dr Dimitris Dionysiou

Dr. Dionysiou is Associate Professor of Plastic and Reconstructive Surgery at the Medical School of the Aristotle University of Thessaloniki, Greece. He has a main interest in Lymphedema surgical management, in Breast and Lower Limb Reconstruction.

In 2008 he underwent a microsurgery fellowship in QVH-UK, in 2011 a lymphedema fellowship in Paris by Corrine Becker, in 2015 he received the postgraduate title: "Postgraduate training in lymphatic diseases for medical doctors" from the European School of Lymphatic Diseases, and in February 2017 he served for 1 year as Visiting Professor in lymphedema research at Stanford University, USA.

Within the framework of his continuing scientific training, he has attended numerous educational seminars and conferences, where he presented a significant number of scientific papers, and edited and authored in many medical books and chapters related to microsurgery and lymphedema. The Plastic Surgery Department of Aristotle University, under the supervision of Dr Dionysiou, has contributed in literature, with novel techniques as well as the use of new technologies in lymphedema management.

He is a member of national and international medical scientific societies, and since 2015 he is an active member of the European Association of Plastic Surgeons (EURAPS). He serves as the Chair of EURAPS Research Council for 2020 in Athens, President of the Hellenic Society of Reconstructive Microsurgery for 2020, and Board Member of the Greek Lymphogogy Society.
